PROFESSIONAL SUMMARY

Detail-oriented Master of Computer Applications (MCA) graduate with expertise in full-stack development and data management. Proficient in building high-performance web and mobile applications using Java, Python, and React Native. Adept at creating scalable microservices and accessible AI-driven tools, focused on delivering innovative software solutions.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, NodeJS, React Native, Java, C

Databases & Tools: SQL, MySQL, FastAPI, Uvicorn, OpenCV, MediaPipe, TensorFlow

EXPERIENCE

Full Stack Developer Intern — Techpath

Jan 2026 – May 2026

Mangalore, Karnataka

- Engineered and debugged complex application modules independently using modern full-stack frameworks.
- Enhanced user engagement by designing responsive interfaces and optimizing cross-device compatibility.
- Collaborated on building production-ready code for scalable business solutions.

EDUCATION

Master of Computer Applications

2024 – 2026

St Aloysius (Deemed to be University), Mangalore

GPA: 7.9

Bachelor of Computer Applications

2020 – 2023

Srinivas University, Mangalore

GPA: 7.5

Pre-University (PUC) & High School

2019 – 2021

Mangalore, Karnataka

GPA: 8.0

KEY PROJECTS

Sign Language Subtitle Generator: Developed an accessibility tool utilizing deep learning to interpret hand gestures and generate live subtitles, bridging communication gaps for the speech and hearing impaired.

AI Grammar Correction Model: Fine-tuned a T5-small transformer to automate complex grammar correction; engineered custom data pipelines and utilized BLEU/ROUGE metrics for rigorous performance evaluation.

FilmFolks: Built a feature-rich movie platform integrating community reviews and real-time recommendation engines to enhance personalized content discovery.

RythmnRing: Conceptualized and built a community-driven collaborative audio platform where users can record, share, and layer vocal tracks to create unique musical compositions collectively.

AirCanvas: Engineered an interactive digital canvas that translates spatial hand movements into real-time on-screen sketches, leveraging computer vision for touchless interaction.

CERTIFICATIONS

- Object Oriented System Development – NPTEL (UML, Java, and Patterns)
- Artificial Intelligence for All – Infosys Springboard
- Basics of Python – Infosys Springboard
- Introduction to Cloud – Cognitive Class
- SQL and Relational Databases 101 – Cognitive Class

LANGUAGES

English, Hindi, Malayalam, Kannada
